

**It's a Timberline® roof.
With solar energy.
It's that simple.**

We take Timberline®, the most trusted shingle in North America, and make it solar-savvy. Timberline Solar® ES 2 is the next generation of the world's first nailable solar shingle. Solar is the shingle. And the shingle is solar.

Solar has never been easier

Benefits:

- Timberline Solar® ES 2, the world's first nailable energy shingle, requires no additional solar panel racks drilled into the roof. This shingle looks and functions just like an asphalt shingle, installing directly onto the underlayment and protecting the home against rain, snow, wind, and other elements.
- The Timberline Solar® ES 2 generates clean, renewable energy for the home. That means it can reduce energy costs¹ and possibly qualify for various local or federal government incentives.²
- The Timberline Solar® ES 2 is compatible with every GAF Timberline® shingle, the most trusted shingle brand in North America.
- The entire GAF Timberline® Solar roofing system is installed by the same GAF-certified contractor,³ using the same crew, tools, and expertise; and the entire roofing system is backed by a comprehensive warranty covering both the roof and solar components.⁴

Timberline Solar® ES2 installs alongside Timberline® asphalt shingles, using the same crew, tools, and expertise.

One warranty protects the entire system, unlike other solutions that require separate power and roof warranties.⁴

GAF offers support with electrical, building code, and other solar energy issues.

¹ Savings will vary and are not guaranteed.

² Incentives and eligibility requirements vary and availability is not guaranteed.

³ Contractors enrolled in GAF certification programs are not employees or agents of GAF, and GAF does not control or otherwise supervise these independent businesses. Contractors may receive benefits, such as loyalty rewards points and discounts on marketing tools from GAF for participating in the program and offering GAF enhanced warranties, which require the use of a minimum amount of GAF products. Your dealings with a Contractor, and any services they provide to you, are subject to the Contractor Terms of Use. Visit gaf.com/gaf-contractor-terms-of-use for details.

⁴ Available for qualifying systems installed by GAF Master Elite® or Certified™ contractors only. See Golden Pledge® Limited Warranty and Solar Max Limited Warranty Addendum for complete coverage and restrictions. For complete information about your enhanced warranty options, visit gaf.energy/warranty. For installations not eligible for enhanced warranties, the Timberline Solar™ Shingle & Accessory Limited Warranty and GAF Shingle & Accessory Limited Warranty apply. Visit gaf.com for copies of these limited warranties.

Energy from
every roof®
